Griffin Park Toilets - update

Porthcawl Town Council are committed to delivering new build toilet facilities at Griffin Park. However, due to unforeseen planning conditions placed upon the planning consent, the Town Council has experienced some delays in the process. Therefore, the planned closure date for the current toilets will be delayed whilst the Town Council negotiates its way through meeting the conditions set by the Planning Authority.

The existing toilets will remain open until such time as work can begin on the site. During the demolition and construction period temporary toilets will be made available, which will ensure there will be public conveniences available in the locality at all times.

The Town Council wishes to reiterate its commitment to delivering new facilities. Regular updates on the development of the facilities will be posted to the Town Council website www.porthcawltowncouncil.co.uk.
