### **Griffin Park Toilets**

The Community Asset Transfer process has now been concluded. In tandem with this an application for planning approval by Porthcawl Town Council was submitted and granted by Bridgend County Council planners for the demolition of the old public toilets and construction of new public toilets on the same site.

During the construction period the immediate area will be cordoned off however the Park itself will remain fully operational as it is now.

The Town Council is very grateful to the committee of Griffin Park Community Centre for their assistance by allowing public access to the toilets in their building for the period of construction. The Community Centre is fully equipped with disabled compliant toilets and a staff volunteer will be at the Centre during opening hours.

The existing toilets will be closed with effect from Tuesday 18th February 2020 until the new toilets are open for use. Access from the park is via the small gate alongside the Community Centre. Signage, indicating opening times will be installed around the park to guide park users and others to the temporary toilets.

The understanding and assistance of residents and visitors during this period is much appreciated.

Sarah Watkins  
Interim Town Clerk  
Porthcawl Town Council
