

John Street and Griffin Park Toilets

January 18th 2019

A Special Town Council meeting was held last evening to progress plans to re-open John Street and Griffin Park toilets.

Recognising the urgency & to enable Porthcawl Town Council to progress the re-opening of the toilets a formal tender process has been undertaken by officers.

Councillors reviewed the short-listed bids that had been received.

After much discussion, the successful bid was unanimously selected and it is expected that the successful company will mobilise as soon as possible to re-open both toilets and provide the level of service Porthcawl needs. Immediate steps will be taken to award the contract.

The successful contractor will commence preparations imminently to recruit local staff and make the facilities ready for re-opening on 18th February 2018.

The contract is for an initial period of 12 months during which time Porthcawl Town Council will engage with Bridgend County Borough Council around Community Asset Transfer to secure the long term operation of the two facilities.
